

Programmer Name(s):								
Logan Linn								
Matthew Ibarra								
	Original	Original	Elapsed time at		Second	Second	Total	
	Estimate	Deadline	Intermediate Schedu		Estimate	Deadline	Time	
Task			Partner 1	Partner 2			Partner 1	Partner 2
Setup, spec reading, scheduling	5	3/29/2011						
Command line parser modifications	3	3/29/2011						
MemoryManager modifications	6	4/1/2011						
MemoryHandle modification	4	4/1/2011						
Hashing function, collision resolution	8	4/4/2011						
Hash table setup and I/O	9	3/31/2011						
Debugging	8	4/30/2011						
Testing	7	5/1/2011						
Scheduling	2	5/2/2011						
Finalizing and Submission	2	5/2/2011						
Sum of Tasks	54							
Notes:								
* All estimates should be to the nearest hour								
* If you work with a partner, there is an elapsed time for each partner								
* Elapsed times should be in hours, can be in minutes								
* "Original Estimate" is how many hours you estimate								
* "Original Deadline" is the date that you plan to finish								
* "Elapsed time at Intermediate Schedule" is how many hours you have spent								
* "Second Estimate" is how many (total) hours you estimate								
* "Second Deadline" is your revised deadline								
* "Total time" is the total number of hours you estimate								
* "Sum of tasks" row should contain sums of all tasks								
* You should add to the list of tasks in this table as you complete tasks
